PROFILE

Computer Science graduate with experience in front-end development and interactive media. Skilled in JavaScript, UI/UX design, and modern tools, with strong leadership and collaboration skills gained from varied professional roles. Seeking a junior developer position focused on creating engaging, user-centered applications.

EMPLOYMENT HISTORY

Resident Assistant   2022 — 2025
Blackburn College — Carlinville, IL

- Oversaw dorm operations and supported 30+ residents, providing guidance, mediation, and conflict resolution.
- Coordinated community-building events and maintained campus policies with professionalism.
- Developed leadership, organization, and communication skills used in collaborative engineering teams.

Sales Associate   2021 — 2022
MicroCenter — Brentwood, MO

- Assisted customers with tech purchases and troubleshooting hardware/software products.
- Explained technical concepts clearly to non-technical customers.

HVAC Technician   2015 — 2018
Aragon — Oceanside, CA

- Diagnosed and repaired HVAC systems requiring technical troubleshooting and precision.
